FAYSHAL KARAN ATHILLA

UNITY GAME DEVELOPER | INFORMATICS ENGINEERING

Malang, Indonesia • faykara.official@gmail.com • +62 812-3250-5308 (WA) • linkedin.com/in/faykara

PROFESSIONAL SUMMARY

Informatics Engineering student at UNIDA Gontor specializing in Unity game development with verified industry and research experience. Skilled in C# scripting, interactive game mechanics, and integrating educational pedagogical elements into engaging game systems. Creative, collaborative leader with practical experience in game jams and cross-functional teams.

PROFESSIONAL & ACADEMIC EXPERIENCE

Unity Game Programmer | *Joy Leap Studio - FUNTASYA World* April 2026 – November 2026 (Sidoarjo (Remote via Discord))

- Collaborated within an agile game development team to design core gameplay mechanics and interactive systems in Unity.
- Contributed to game design documents (GDD), programmed player mechanics, and optimized UI and performance workflows.

Lecturer Research Assistant | *UNIDA Gontor (Ministry of Education Grant)* June – November 2025 (Ponorogo)

- Designed technical concepts for a 3D English educational game for elementary students with a child-friendly learning flow.
- Engineered adventure mode and progressive evaluation features integrating curriculum materials directly into gameplay.

Practical Assistant (OOP & Game Programming) | *IT UNIDA Gontor* June 2025 – January 2026 (Ponorogo)

- Developed course materials and supervised laboratory practicals on Object-Oriented Programming, Git/GitHub, and Unity 6.
- Guided students through project architecture, debugging, and final game project readiness.

Game Developer Mentor | *UNIDA Gontor IT Study Club* June 2025 – Present (Ponorogo)

- Mentored members across game programming, pixel/3D art, and game design through project-based prototype workshops.

Project Leader & Developer | *GameJam+ 2025* November 2025 (Online Event)

- Led a cross-functional game development team to build and submit a playable prototype within 48 hours.

EDUCATION

Universitas Darussalam Gontor • Informatics Engineering Student • **GPA: 3.78** May 2023 – August 2026

Pondok Modern Darussalam Gontor • High School Diploma • **Final Grade: 8.97** April 2017 – April 2023

FEATURED GAME DEVELOPMENT PROJECTS

Manual Brewing Kopi *[Unity WebGL • Physics Simulation]:* Interactive coffee brewing simulator modeling realistic dripper, filter, kettle water extraction phys

FUNLISH *[Unity 3D • EdTech]:* 3D object-hunting educational game for elementary students featuring interactive audio, vocabulary challenges, and mini-gam

AMANAH *[Unity 2D • Narrative Choice]:* Anti-corruption narrative drama centered on political dilemma, featuring branching dialogue and multiple story ending

Qolbuna *[Unity 2D • Audio-First / Accessibility]:* Accessible Quran memorization game engineered for visually impaired learners with 100% voice audio navig

TECHNICAL SKILLS & UNITY CERTIFICATIONS

Core Skills: Unity (95%), C# Scripting, Game Mechanics, UI/UX Wireframing, 2D/3D Art & AR, Git/GitHub, Team Leadership

Unity Badges: Unity Creative Core • Unity Essentials • Unity AR Mobile Dev • Unity VR Dev • Unity Junior Programmer
